**Subject:** Draft response to comments on well drilling, construction, and development of MW01 and MW02  
Response to Comments on Well Drilling Construction Development v1 dcd 4 12 2013.docx

Here is the first draft on response to comments to drilling, construction, and development of MW01 and MW02 for internal (GWERD) review.

I would like to receive comments (especially from Rick due to extensive responses involving geochemistry) prior to this document being forwarded to management outside of GWERD and to Region 8.

The document still needs work but it is now in sufficient condition to commence receipt of comments.

Starting Monday, I focus on response to comments on purging and sampling.
